

**TRITON**

**(mixture cordyceps + shiitake + reishi)**

▶ 90 tablets (dose for 1 month) **523 CZK** ◀

▶ 250g – powder (dose for 4 months) **1.986 CZK** ◀

It is a supplement of food – well-balanced combination of three fungi effects used by traditional Chinese medicine: **Cordyceps sinensis** (Caterpillar Fungus), **Shiitake** (Chinese black mushroom), **Reishi** (Ganoderma lucidum).

The product **TRITON** is grown on the basis of fungal biomass in autoclave sterilized substrate. It is grown uncompromising adherence to conditions that are required for the production of pharmaceuticals. The result is a standardized biomass, in the patented process ensures a culture that is not contaminated by other fungi and that are not present in pesticides and heavy metals.

**CORDYCEPS SINENSIS** (Caterpillar Fungus)

▶ 90 tablets (dose for 1 month) **655 CZK** ◀

▶ 250g – powder (dose for 4 months) **2.366 CZK** ◀

**Immune support and antioxidant effects**

In addition to supporting immunity it has significant antioxidant effects, promote metabolism and excretion resulting from the digestion of such drugs. It positively effects on liver function (besides others cirrhosis) and kidneys.

**Lungs support** – it is traditionally used for supporting the lungs (cough, asthma and allergies).

**Kidney support** – it is traditionally used for supporting the kidneys (e.g. frequent enuresis) and adding the energy in the sexual sphere.

**Natural antibiotic** - cordyceps effects as a natural antibiotic, reduces many harmful bacteria (pneumococci, streptococci, golden staphs), has anti-inflammatory effects.

**Rejuvenate and refresh effects** – it is traditionally considered as a product capable of maintaining the freshness of youth. Lowers the **lipids** and **cholesterol** levels in blood, helps regulate and dissolve thrombi. It helps to fill in energy to exhausted

organism (e.g. after physical effort, illness, etc.). It restores skin without shine. Chinese top sportsmen use it plentifully for its power after training to regenerate energy of organism. **Tumour diseases** – it stimulates the activity of leukocytes and increases their level, it is an important product to reduce the side effects of radiotherapy and chemotherapy.

**SHIITAKE** (Chinese black mushroom – Lentinula edodes)

▶ 90 tablets (dose for 1 month) **465 CZK** ◀

▶ 250g – powder (dose for 4 months) **1.758 CZK** ◀

**Antibacterial effects** – an inhibitory effect on Staphylococcus aureus, Bacillus subtilis and Escherichia coli.

**Immune support** – for immune weakness, civilization diseases, allergies, colds and the rhyme (increases concentration of interferon); to support an organism of elderly people, preventive support at younger people (reworking, exhausting).

**Cardiovascular effects** – chronic high blood **cholesterol** level (prevention of arteriosclerosis) and lipid levels, reducing high blood pressure, although anaemia.

**Immunomodulatory and antitumor effects** – e.g. increasing the phagocytic activity of macrophages, stimulation of T-helper and NK cells; support of chemotherapy and radiotherapy for decline of side effects of the treatment; study of using at sarcoma 180, tumor MM-46.

**Hepatoprotective effects** – gallstones, stomach problems and ulcers. Complex effects can be

achieved in combination with Polypore Mushroom (**reishi**) and Turkey Tail (**coriolus**).

**Natural source of minerals and vitamins** – contains potassium, phosphorus, iron, zinc, calcium, copper, magnesium, manganese, germanium, strontium, vitamin B2 (riboflavin), C, D2, about 30 enzymes and over 10 essential amino acids, proteins and fiber.

## REISHI (Ganoderma lucidum)

▶ 90 tablets (dose for 1 month) **465 CZK** ◀

▶ 250g – powder (dose for 4 months) **1.758 CZK** ◀

**Immune support** – contains immunostimulatory acting substances (beta glucans), antibacterial and antivirus. Great application use finds at recovering of organism energy after operations or long exhausting – physical and mental. Traditionally it is also used for strengthen joints, tendons and bones, to increase vital energy and “unweighting” of the body.

**Prevention of aging** – a natural antioxidant that affects against free radicals, it finds application at both old and young people. The content of specific triterpenoids protects against hardening of the arteries and helps reduce the adhesion of platelets to each other.

**Protection and detoxication of the liver** – helps regenerate the liver after loading western drugs, alcohol or hepatitis. It removes heavy metals from the body that can be used besides others always after treatment including dental amalgam fillings.

**Insomnia** – has traditionally been used by Taoist monks to calm the spirit and mind and improve mental activity.

**Hypertension** – ganoder acid lowers blood pressure.

**Diabetes, Goat** – ganoder acid lowers bad cholesterol and fat levels in the blood.

**Asthma, bronchitis, allergies** – the effects of strengthening the stamina supplement traditional properties of Ganoderma stop coughing, transform phlegm and effects anti-asthmatic.

**Tumour diseases** – alternative product of using the anti-tumour activity of contained beta glucans and germanium. It also reduces toxic and side effects of chemotherapy or radiotherapy and pain, supports macrophages and regulates T and B lymphocytes, suppresses the spread of tumour cells.

## PLEUROTUS (Pleuritis ostreatus – Oyster Mushroom)

▶ 90 tablets (dose for 1 month) **465 CZK** ◀

▶ 250g – powder (dose for 4 months) **1.758 CZK** ◀

**Antibiotic effect** – a source of antibiotic pleurotin.

**Immune support** – the stiffness of tendons and muscles, strengthen veins, stiffness of limbs, lumbago. Natural source of minerals and vitamins. It supports the growth of young cells.

**Cardiovascular effects** - cholesterol under control. It is a natural source of statin, is currently the most effective reducer of high cholesterol level (prevention of atherosclerosis). Immunomodulatory and anticancer effects. It positively effects on eczema, skin allergies, haemorrhoids, varicose veins.

**It includes iron-transport proteins** that transport it to the place of absorption in the intestines.

## POLYPORUS (Polyporus umbellatus – Polypore Oris)

▶ 90 tablets (dose for 1 month) **523 CZK** ◀

▶ 250g – powder (dose for 4 months) **1.986 CZK** ◀

**Diuretic effect** – the traditional use at the swelling and difficult urinating.

**Antioxidant activity** – contained polysaccharides show the effects of depuration of superoxide and hydroxyl radicals.

**Antiviral activity** (supporting at hepatitis)

**Support of hair growth**

**Immune support**
